Type	Number
New PSS	
Replacement of existing third-party PSS	
Colocation on existing third-party PSS	
Replacement of existing city-owned PSS	
Colocation on existing city-owned PSS	
<i>TOTAL (maximum of 20 per application)</i>	

Application Contents Must Include:

1. Preliminary site plan with a diagram or engineering drawing depicting the design for installation of the proposed small wireless facility or modification, including requirements of Manual on Uniform Traffic Control Devices.
2. All plans must be accompanied by the following certification by a licensed professional engineer: “The proposed site plan and design plans contained in this application meet or exceed all applicable engineering, materials, electrical, and safety standards, including all standards related to the structural integrity and weight-bearing capacity of the PSS and small wireless facility.”
3. Location of each proposed site, including the latitudinal and longitudinal coordinates of the specific location of the site. Identification of any third party PSS owner upon whose PSS the applicant intends to collocate. (Certification by applicant that it has obtained required approval from the third party PSS owner is attached.)
4. Brief description of the facility to be installed at each proposed site in the City/County public right-of-way.
5. Sufficient detail and information showing compliance with the City of Columbia’s “Aesthetic Guidelines for Utilities in the Right of Way”

Certifications by Applicant:

1. Applicant has obtained approvals from all third-party owners as applicable to proposed sites for the collocation of small wireless facilities or new PSS.
2. Applicant agrees to pay applicable fees and rates, repair damage (if any), and comply with all nondiscriminatory and generally applicable ROW requirements for deployment of any associated infrastructure that is not a small wireless facility.
3. Applicant has or will comply with the City’s (i) surety bond, insurance and/or indemnification requirements; (ii) rules requiring maintenance of infrastructure deployed in ROW; (iii) rules requiring relocation or timely removal of infrastructure deployed in ROW no longer utilized; and (iv) any rules requiring relocation or repair procedures for infrastructure in ROW under emergency conditions, if any and to the extent that the City has adopted and enacted such requirements on a general and non-discriminatory basis upon entities that are entitled to deploy infrastructure in the ROW.
4. The proposed site plan and design plans included with this application meet or exceed all applicable engineering, materials, electrical, and safety standards, including all standards related to the structural integrity and weight-bearing capacity of the PSS and small wireless facility, as certified by a licensed professional engineer. (Certification of a licensed professional engineer is attached for standards relevant to engineering.)
